 **URL Rewrite** Warning! We have detected parameters in a massive number of URLs

Your site's URLs contain unnecessary elements that make them look complicated. A URL must be easy to read and remember for users. Search engines need URLs to be clean and include your page's most important keywords. Clean URLs are also useful when shared on social media as they explain the page's content.

It all started with an outlet at Tariq Road in 2002. At that time, Tariq Road was, and still is, a shopping hub for those who seek to buy the latest fashion clothes. Initially, only men's wear was available at the store, but later on clothing for women, children,teens, as well as formal wear including groom's wear was also added to the product list as expansion continued. In 2011, we took another bold initiative and gave a new look to all our outlets as part of our'New Outlook, New Outlet' strategy. This broke the monotonous theme of our outlets by making them more modern and different from others. Outlets in Islamabad are: Bahria Town 24 A, Madina Arcade, Main Road PWD, Islamabad. Beverly Center Shop # 6, 7, 8, Mezzanine Floor, Beverly Centre, Islamabad. F-10 Shop# 1 & 2, Shalimar Plaza, Sector F-10 Markaz, Islamabad. F-7 20-A, F7/2 College Road, Jinnah Super Opposite Shell Petrol Pump, Islamabad. Jinnah Super Market Shop # 28, Block 12-C, Jinnah Super Market, F-7 Markaz, Islamabad	Internal Links	Dofollow

While there's no exact limit to the number of links you should include on a page, best practice is to avoid exceeding 200 links.

Links pass value from one page to another, but the amount of value that can be passed is split between all of the links on a page. This means that adding unnecessary links will dilute the potential value attributed to your other links.

Using the Nofollow attribute prevents value from being passed to the linking page, but it's worth noting that these links are still taken into account when calculating the value that is passed through each link, so Nofollow links can also dilute pagerank.
